DESIGN

Salwan Bashi

has successfully completed the ECSE Design course and passed the exam.

D-10178

ECSE Number

Jul 17, 2029

Valid Until

The ECSE Design course ensures foundational knowledge of Wi-Fi principles and validates the skills required to design, optimize, and troubleshoot enterprise Wi-Fi networks using Ekahau products. ECSE Design certificate holders are trained in gathering accurate network requirements, creating predictive wireless designs, performing spectrum analysis, troubleshooting, and surveying network performance.
